Nature

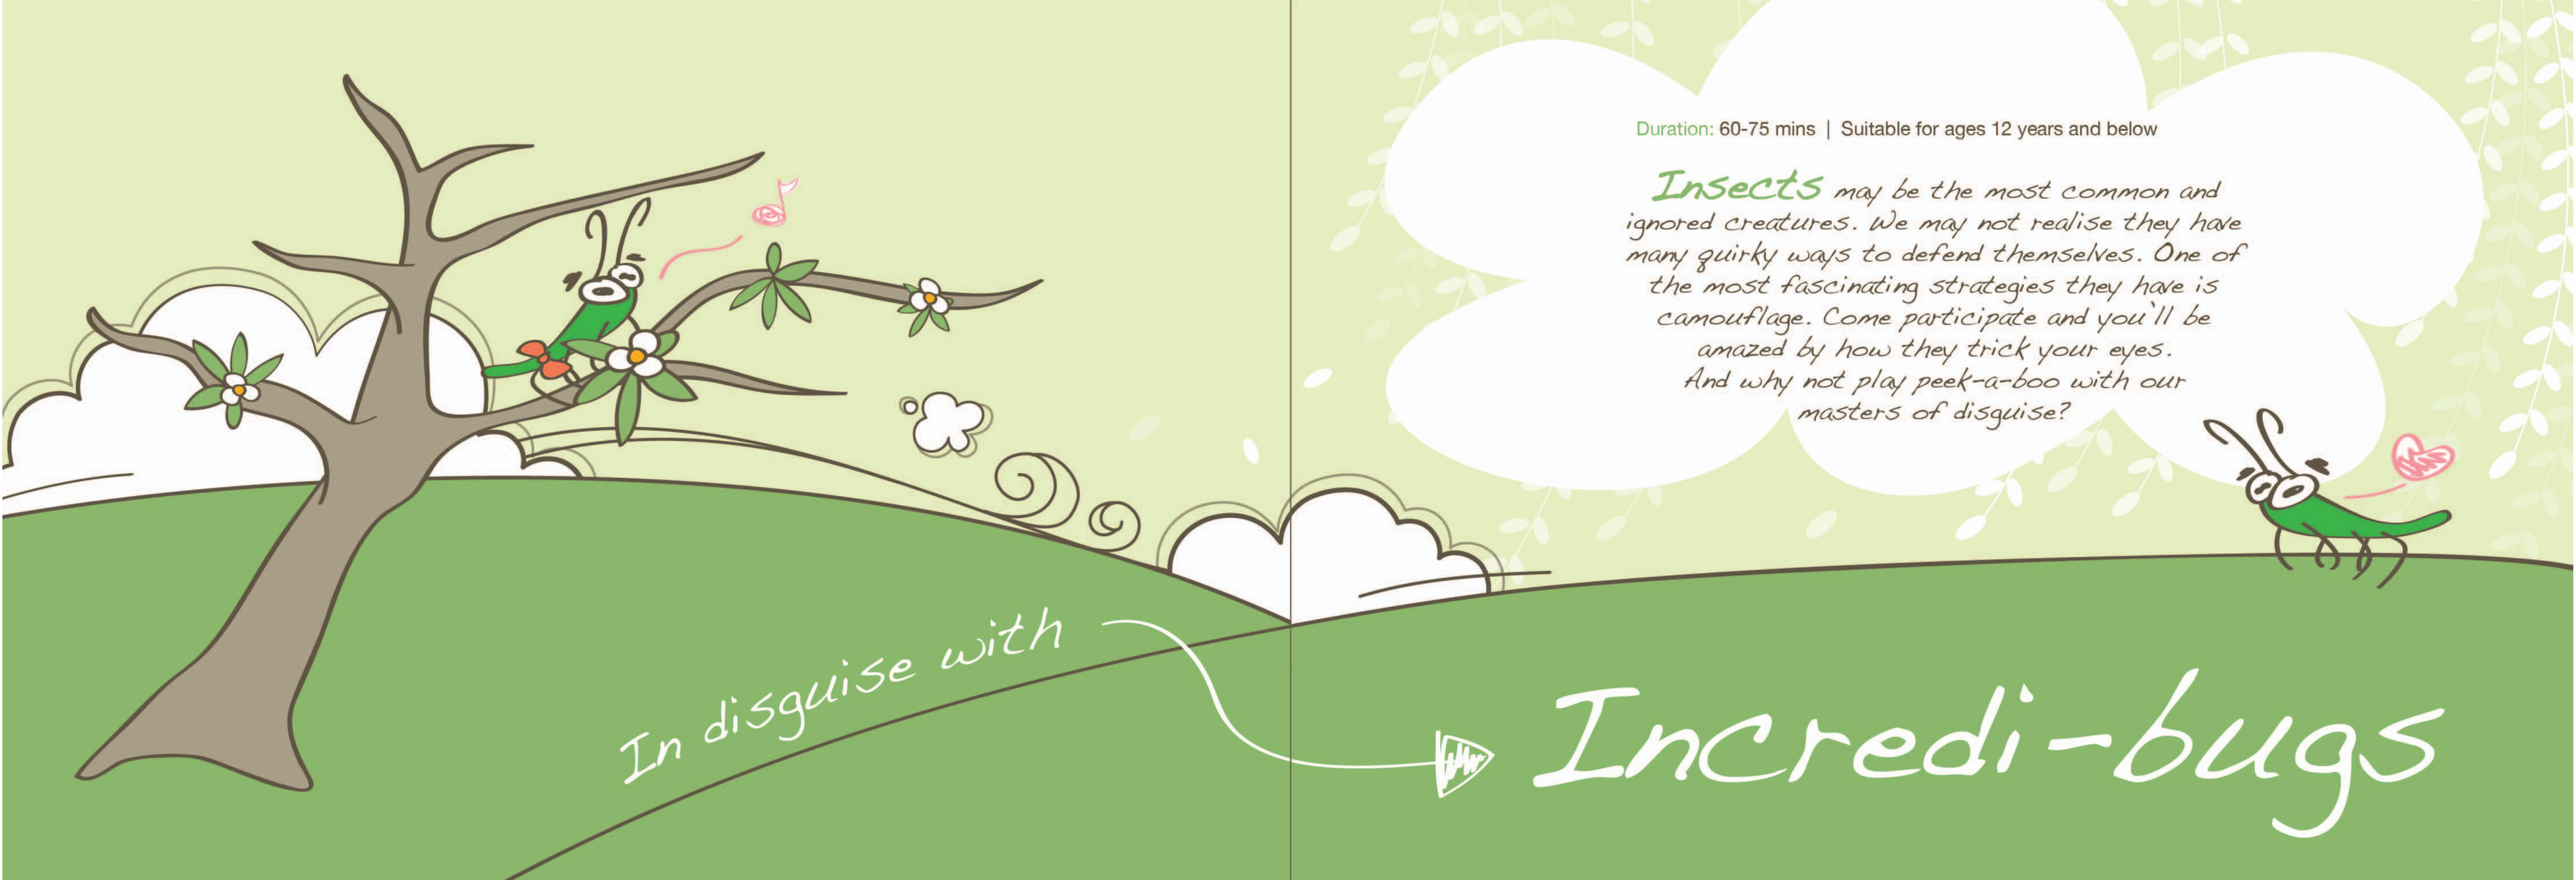

EDUCATION PROGRAMMES

Nature Education is always a big concern for [Penang Butterfly Farm](#) and it is our commitment to reach out to students, exposing them to nature education. Following that, our Education Department has been persistently developing the education programmes in the hope to create fun, motivating and informative learning experience for our younger generation.

Join our fun and brilliant education programmes, and we promise a whole new experience of close encounters with the jewels of nature.

- Suitable for ages 12 years and below
- Suitable for ages 10 years and above
- Suitable for all age groups

Duration: 60-75 mins | Suitable for ages 12 years and below

***Insects** may be the most common and ignored creatures. We may not realise they have many quirky ways to defend themselves. One of the most fascinating strategies they have is camouflage. Come participate and you'll be amazed by how they trick your eyes. And why not play peek-a-boo with our masters of disguise?*

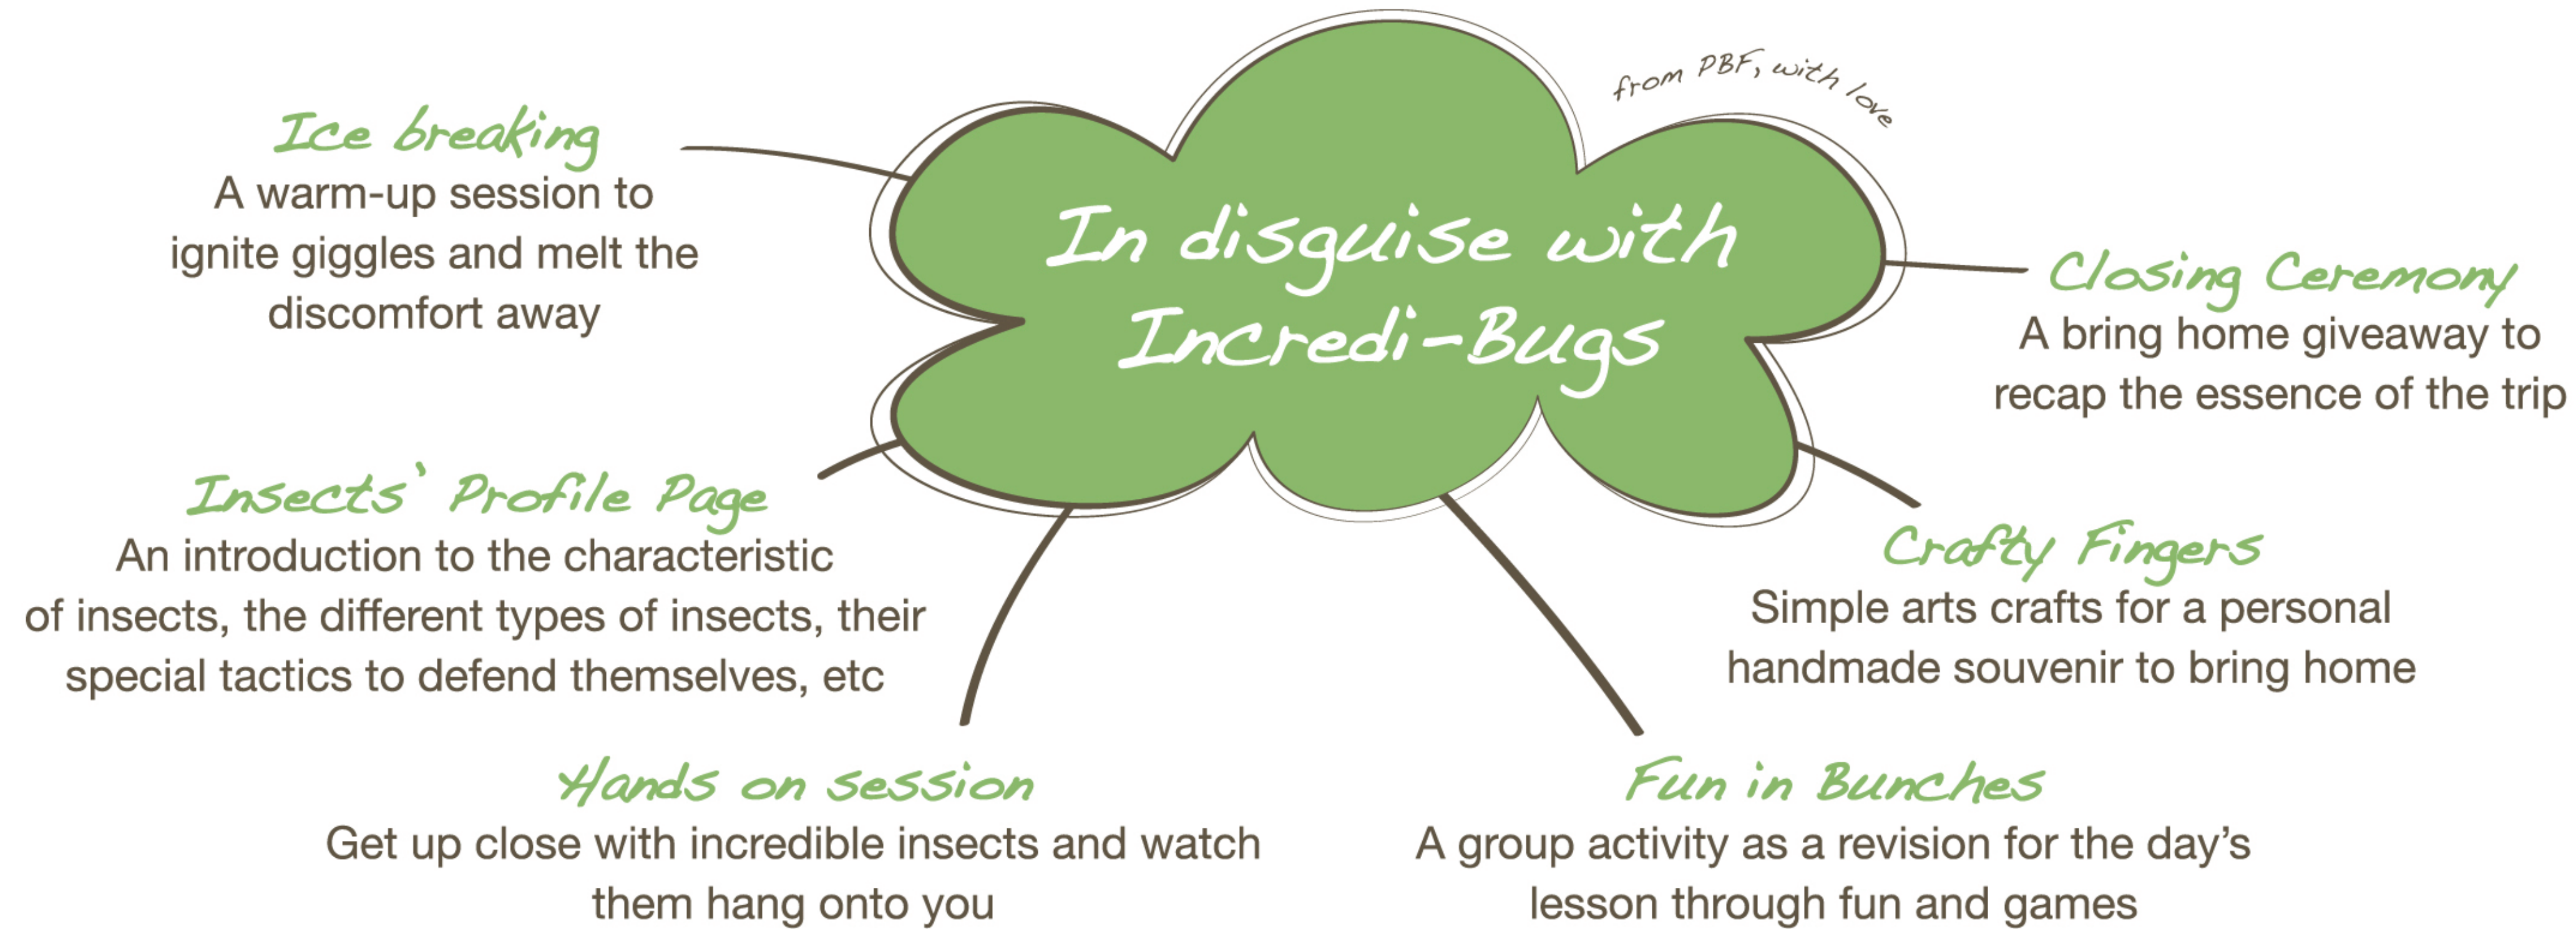

In disguise with

Incredi-bugs

Learning Objectives:

- 🐛 To learn the general characteristics of insects, the different types of insects and their interesting features
 - 🐛 To introduce Phasmids, the masters of disguise
 - 🐛 To explain the importance of insects in our life
 - 🐛 To discuss the conflict between human and insects

Duration: 60-75 mins | Suitable for ages 12 years and below

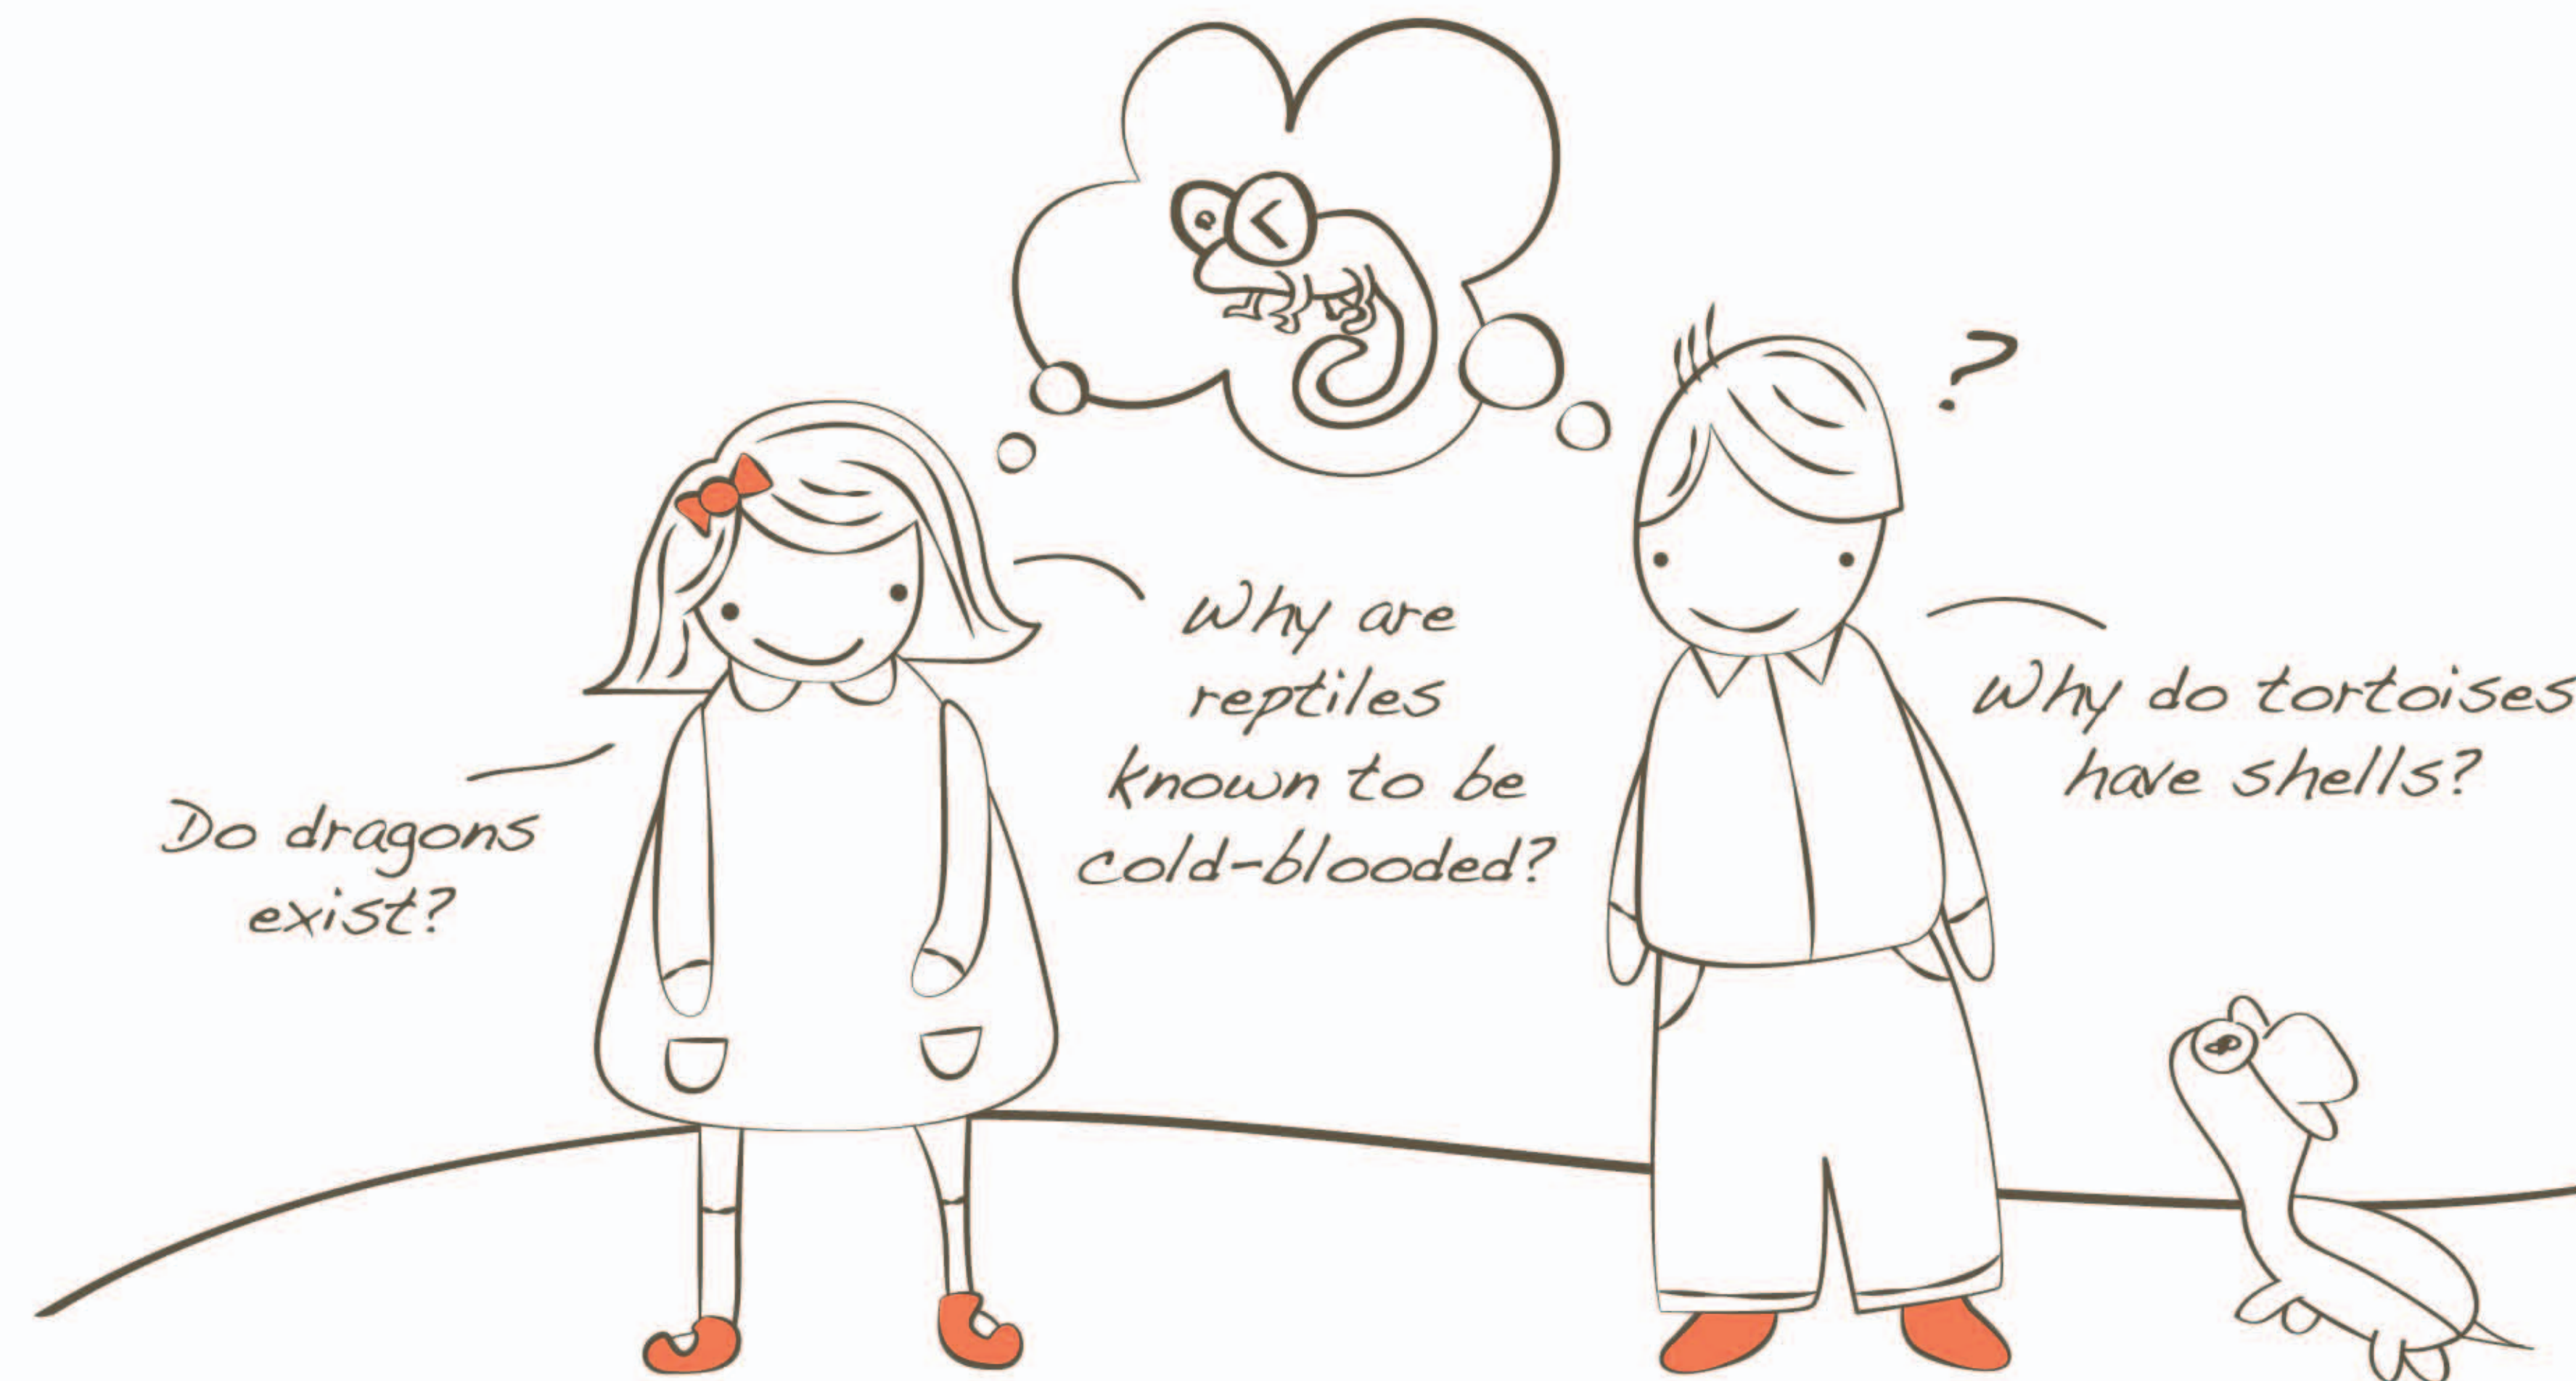

Do you know that dinosaurs still roam the earth and are around us? Well, not really those gigantic ones, but their descendants, the **reptiles**!

Learn which reptile holds the record for being the biggest, the heaviest, the longest and more! You'll get to know these scaly creatures up close as they hang out on your arms and shoulder, if you let them.

Roam around with

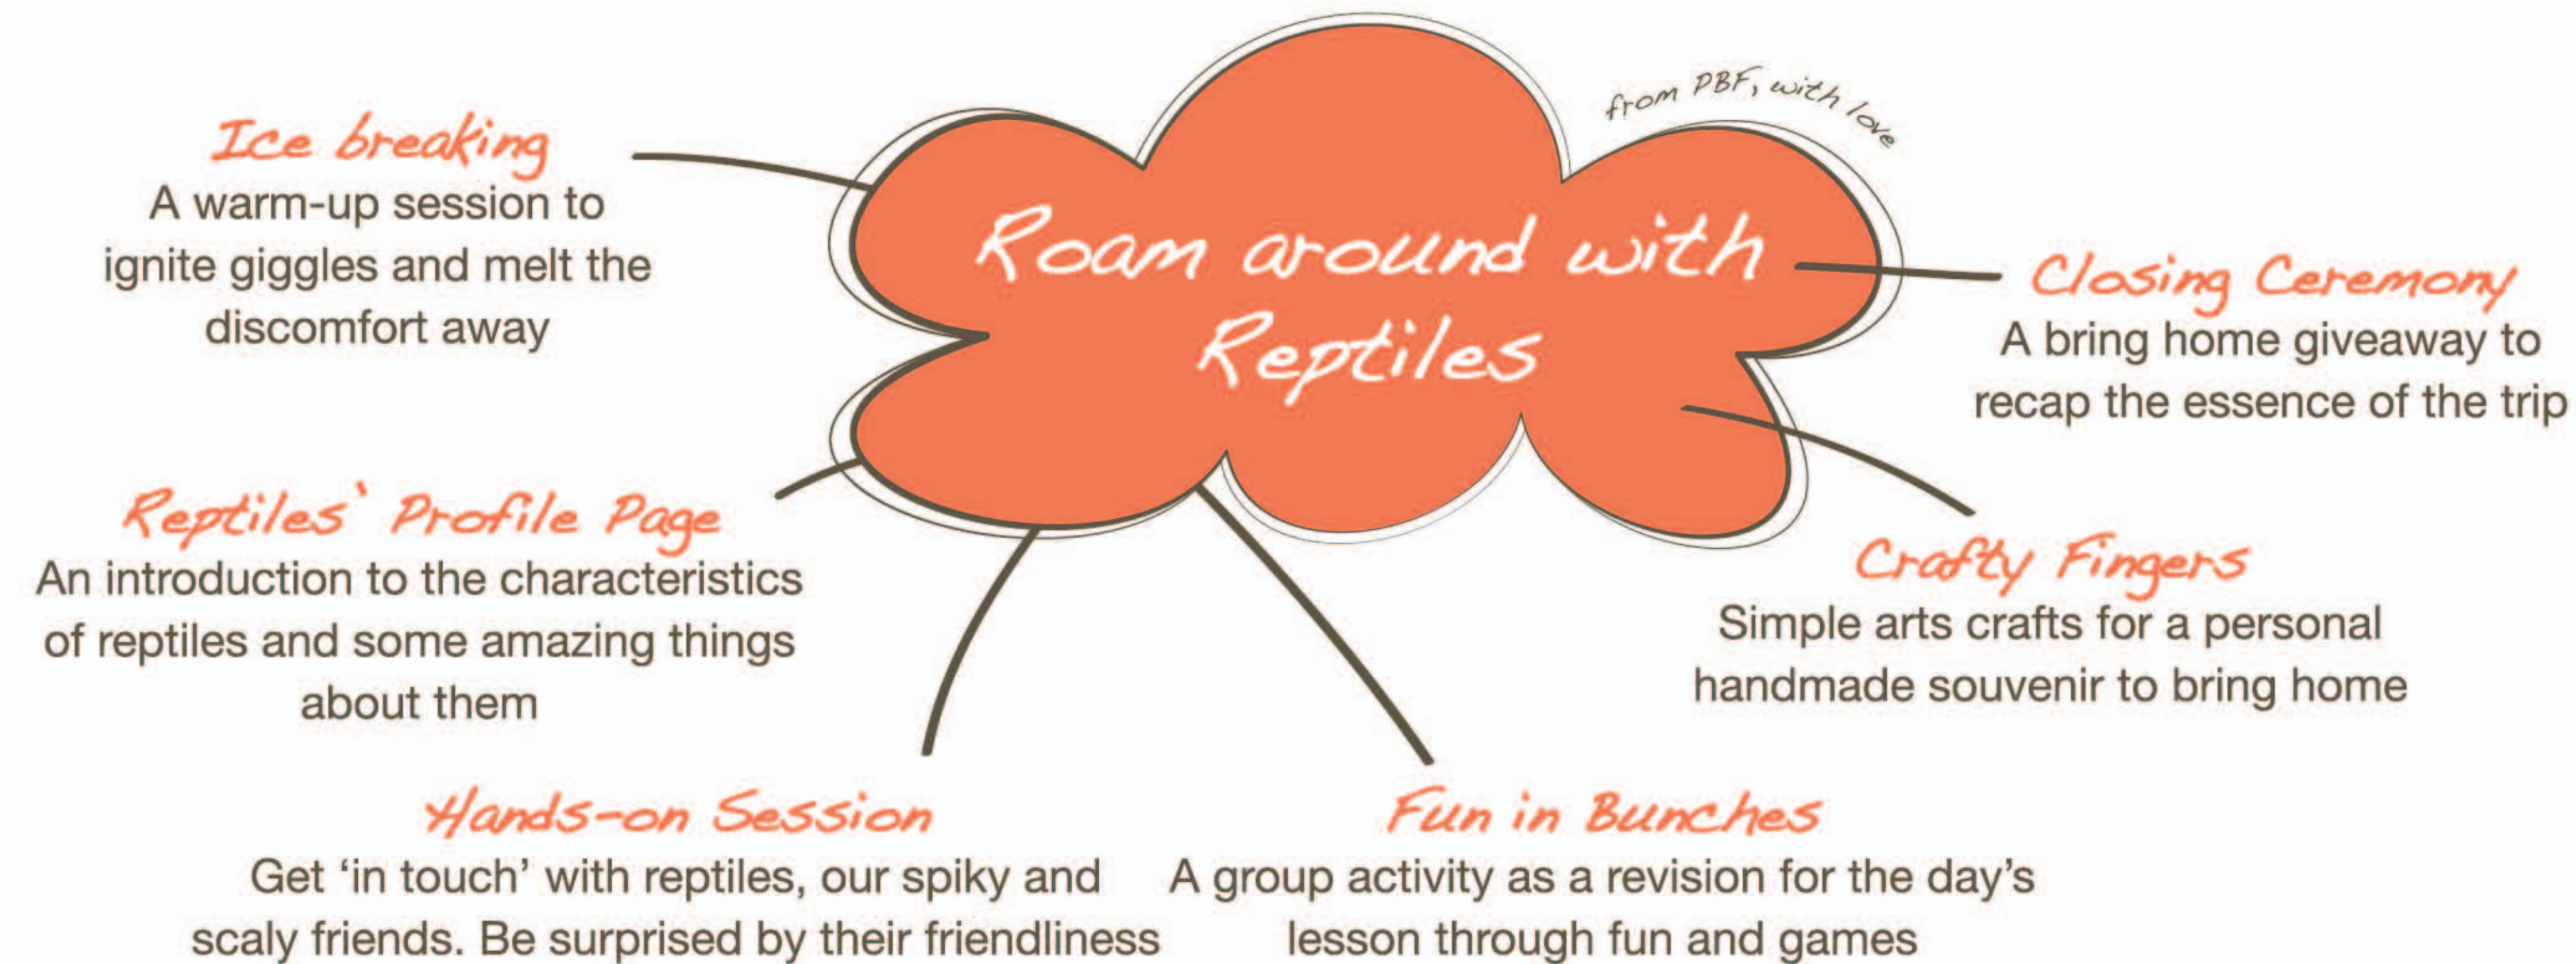

Reptiles

Learning Objectives:

- 📦 To learn the general characteristics and fun facts of reptiles
- 📦 To name, compare and contrast some of the different types of reptiles
- 📦 To understand the importance of reptiles in our life
- 📦 To reveal some of the threats that are endangering the reptile

Duration: 60-75 mins | Suitable for ages 12 years and below

What are the creatures that enjoy living on land and
underwater? *Amphibians*, yes!

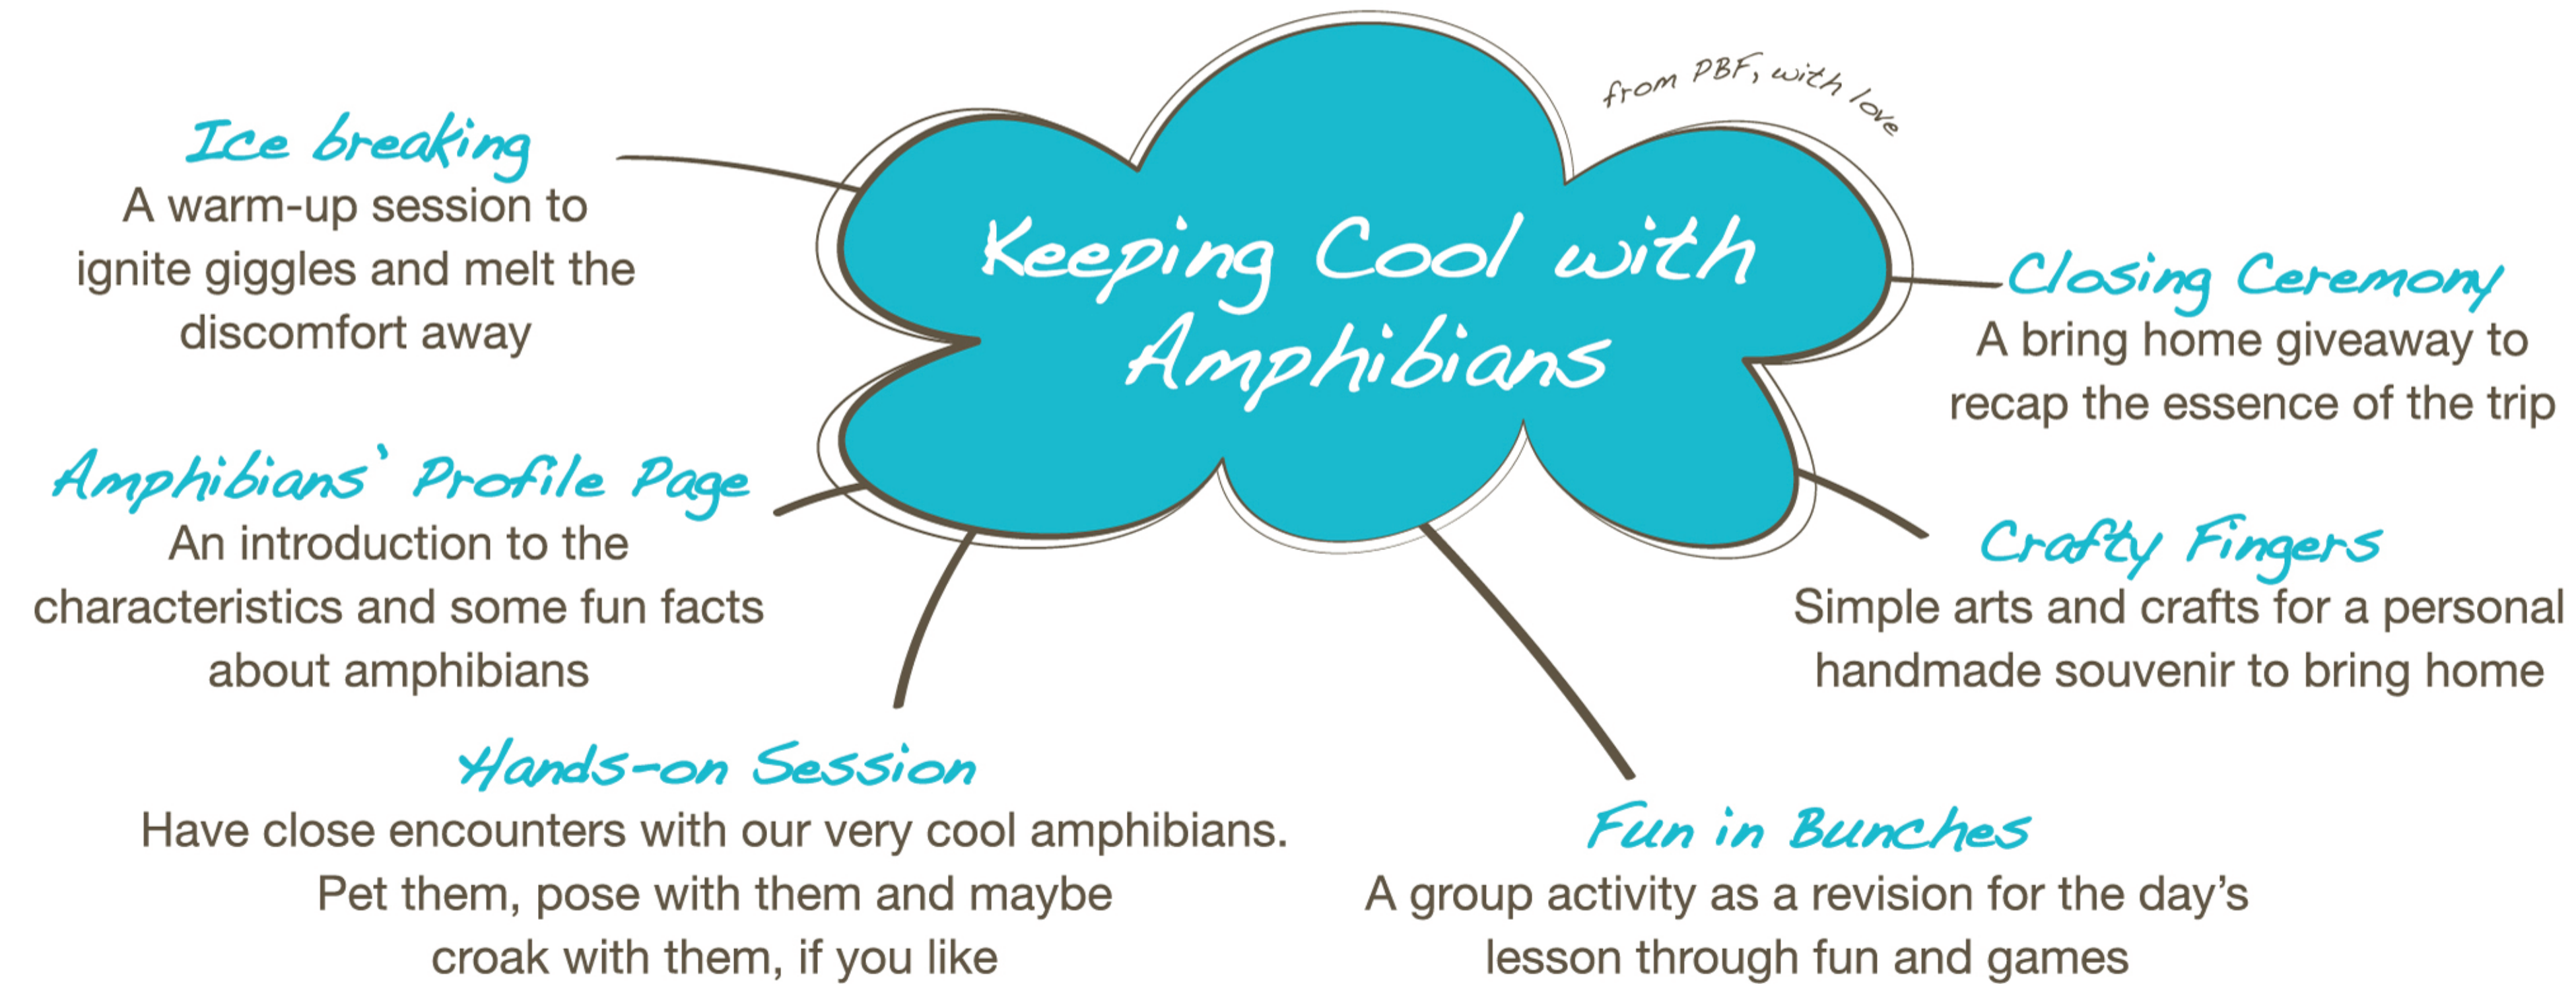

Besides frog, what are the other amphibians that can be found
around us? Learn about their amazing features, their bizarre
abilities and maybe learn to croak like a real frog! Amphibians
may seem to be all slimy and freaky to some, but they are really
fragile creatures. Find out about their secrets and come face
to face with these cool buddies.

Keeping Cool with

Amphibians

Learning Objectives:

- 🐸 To introduce the general characteristics and fun facts of amphibians
- 🐸 To name, compare and contrast some of the different types of amphibians
 - 🐸 To explore the importance of amphibians in our life
 - 🐸 To reveal some of the dangers that amphibians are facing

Bug-venture

Duration: 60-75 mins | Suitable for ages 10 years and above

*We do believe that fun learning is effective learning. Therefore we bring the 'play' into learning through **Bug-venture**.*

*Students would have to venture around **Penang Butterfly Farm** Aviary and Conservatory in the hunt for answers to tricky questions. Discover fun yet informative facts about nature while building up team spirit among students.*

Learning Objectives:

- ☛ To expose students to various nature topics through games
- ☛ To build teamwork qualities in students
- ☛ To connect the students to the live displays and in depth information around the farm

Programme Content:

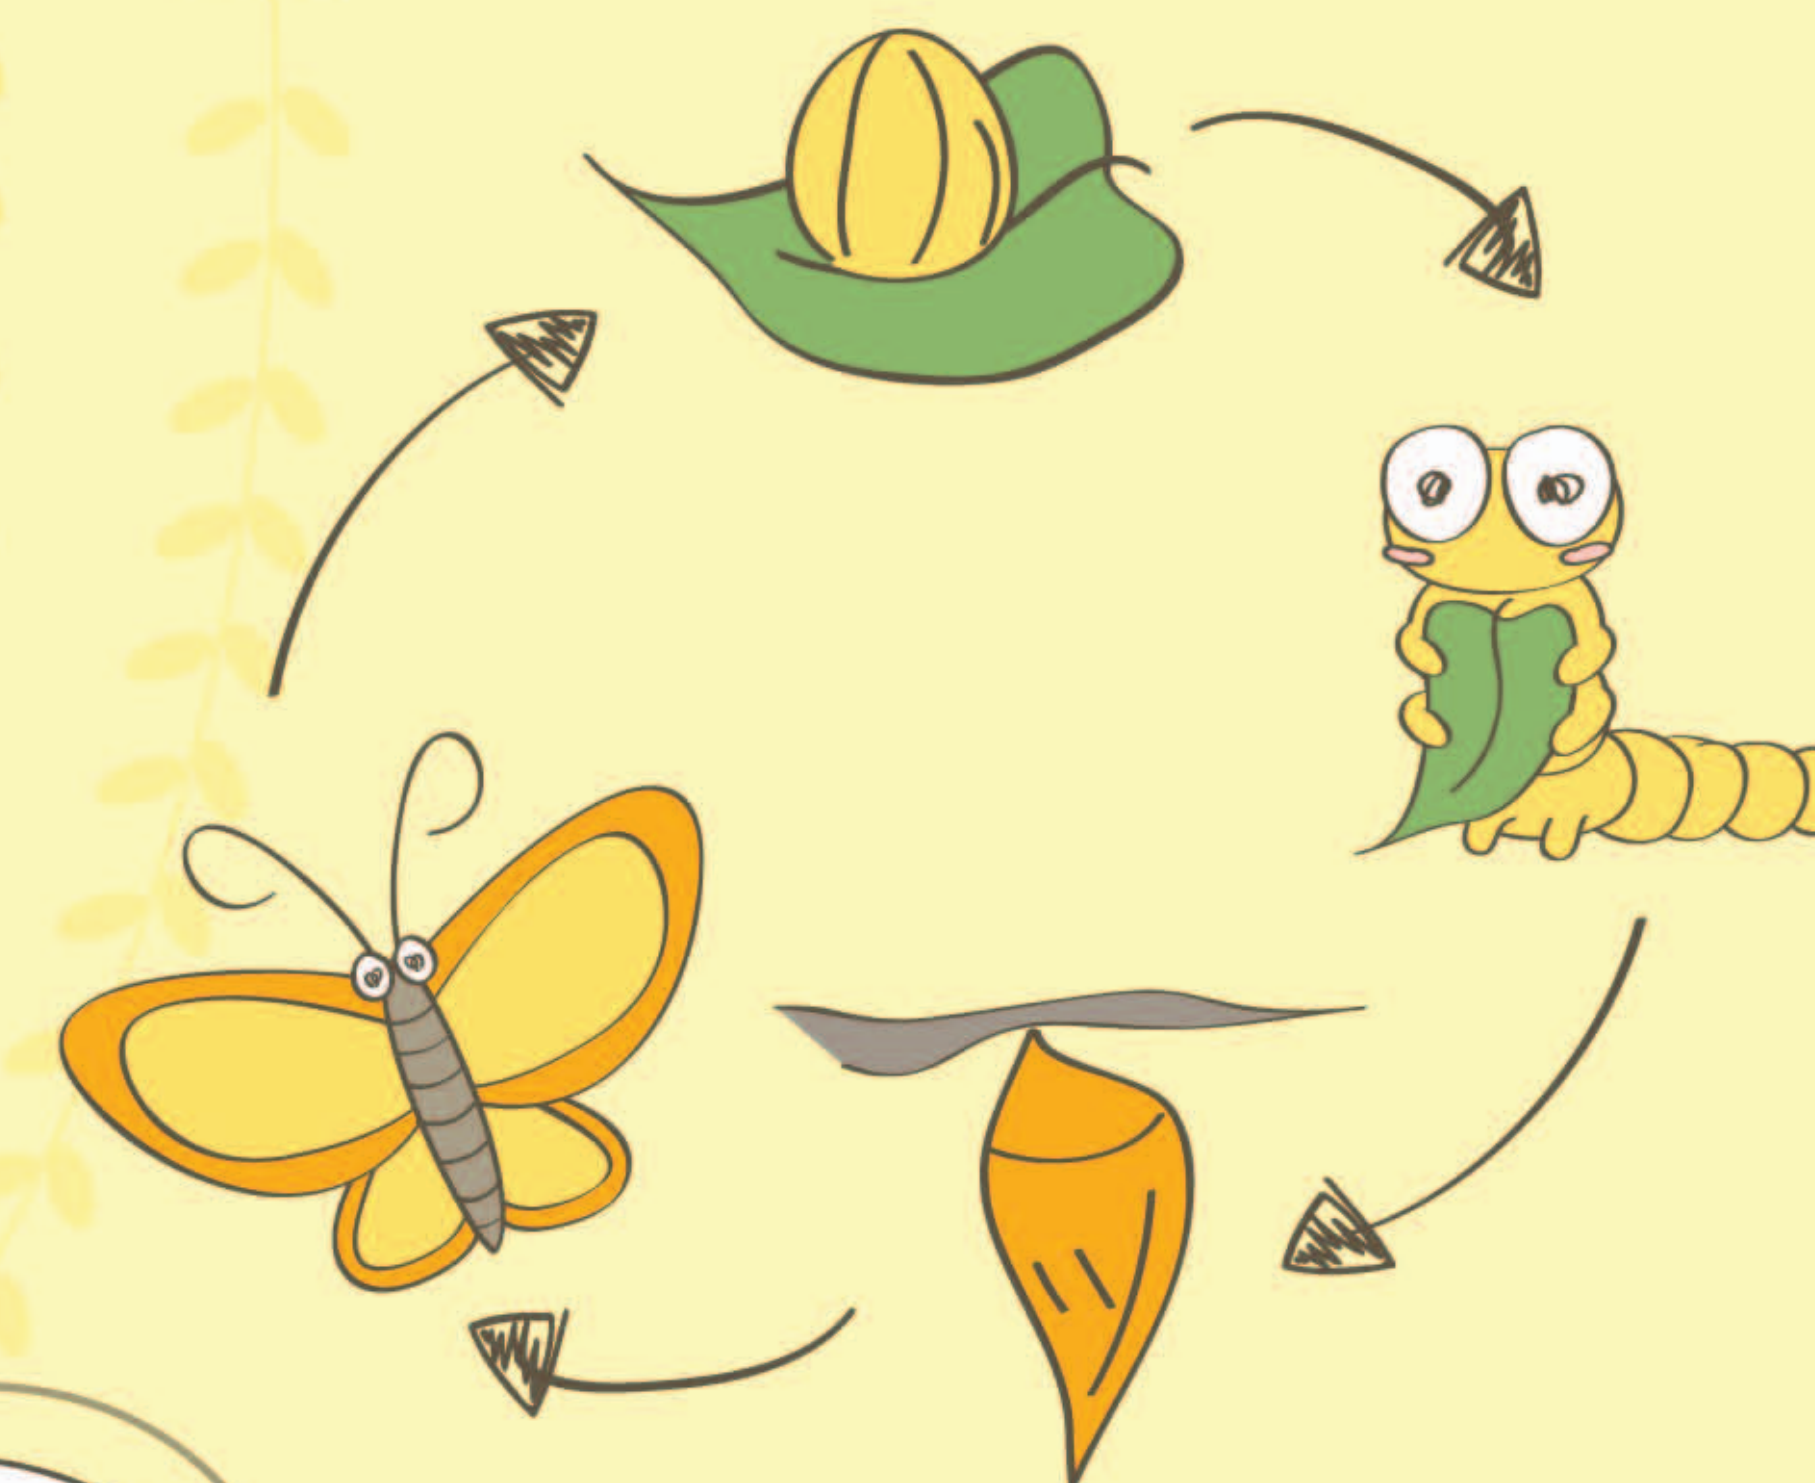

- ☛ Team Building: A fun and warm way to divide them into groups and yet does not split them up
- ☛ Bug-Venture!
- ☛ Discussion & prize-giving session

Up-close with Creepy-Crawlies

Duration: 45 mins | Suitable for all age groups

Creepy-Crawlies?!

But wait, we're here to show you how fragile, friendly and charming they can be. Overcome fears and misconceptions in this cosy session with our amazing **insects, reptiles and amphibians**. You'll be exposed to exclusive hands-on experiences with these creatures and learn their personalities. Bring cameras to capture the moment of your bravery!

Nature Workshops

Duration: Half a day OR full day

Suitable for:

- 🏠 school students above 10 years old
- 🏠 college and university students
- 🏠 teachers and educators
- 🏠 clubs and societies
- 🏠 company trips
- 🏠 families

Join us and you'll enjoy:

- 🏠 An informative and interactive tutorial session
- 🏠 Fun educational games and activities
- 🏠 Exclusive hands-on experience
- 🏠 Certificate of participation

Note:

- 🏠 The content of the programmes depends on the length of workshops, the size of the class and requirements

Nature Workshops

They are custom-made to meet your needs. Absorb knowledge from nature for a day and discover the many stories it has to share. Various topics related to nature, environment and wildlife. Tell us what your area of interest is, and we shall specially design the workshop for you.

from PBF, with love

Outreach Programmes

If you can't come to us, perhaps we could come to you. We do provide specially designed programmes to be conducted at an external venue.

*Have our amazing **creepy crawlies** visit your school. Not only do you get to learn about them, but you also have an exclusive opportunity to handle these remarkable creatures.*

*And, you get to try on our **insect fairies costume** too!*

Join us and you'll enjoy:

- Fun educational games and activities
- Close encounters with creepy crawlies
- Insect fairies costume try-outs

Note:

- For schools and education centres within Penang Island and Seberang Prai only. Please contact us for further enquiries

Orni's Recycling workshop

01

Trim the bottle by following the bottle wrapper line.
Be careful! Cut it straight! Then, remove the wrapper.

02

Cut the cloth into a suitable size to fit your bottle.

03

Glue the cloth around the bottle. Make sure the inner side of the cloth is facing you.

04

Stitch the cloth to the bottle edges by using the thread & needle.

05

After you're done stitching, pull the cloth upward.

08

Lastly, just be your creative self & decorate your storage bottle as desired.

06

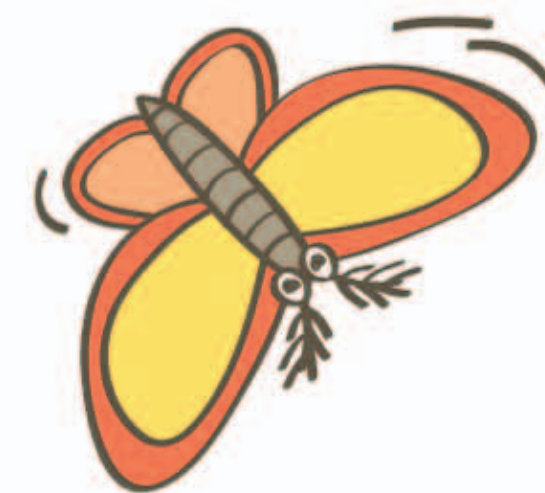

Create a fold at the edge of the cloth with 2 little openings to make a string seal for your storage box.

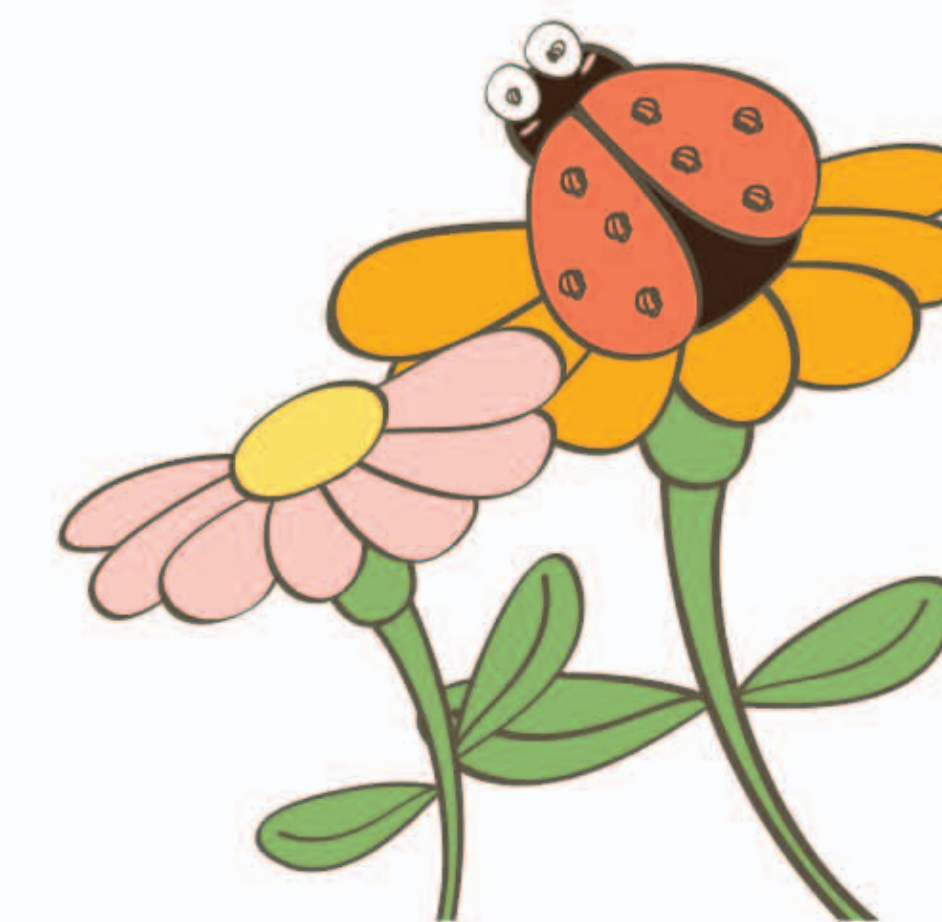

07

Use the safety pin to bring the string through the fold and tie a knot at the end of the string.

Tadaa... your very own
DIY Storage Bottle !!
